

Congratulations! Enclosed is an incentive check for completion of your organization's participation in a Connecticut Energy Efficiency Fund (CEEF) program.

Your company has made an important investment in energy savings. The financial incentive provided by the CEEF helped you complete your project the right way, the first time. The energy-saving benefits will continue on, year after year. Not only will you save money, your company's participation contributes to the stability of Connecticut's electric grid and reduces negative impacts on the environment. Efficient use of energy slows down the need to build more power plants and results in fewer harmful pollutants being released into our atmosphere. Saving electricity has the same impact as taking cars off the road by reducing carbon dioxide and other greenhouse gas emissions.

Again, congratulations and thank you for participating. We hope you will continue to use energy wisely as your business prospers and that you will remember to include energy efficiency when planning your next renovation or equipment purchase. The CEEF has a variety of programs and services for both electric and natural gas energy efficiency that may be of interest to you again in the future. Please call your utility company account executive or 1-888-WISE-USE for more information. You can also visit CTEnergyInfo.com for program descriptions.

Sincerely,

A handwritten signature in dark ink, appearing to read "Jeffrey Gaudiosi", is written over a faint, light-colored background.

Jeffrey Gaudiosi
Chairperson, the Connecticut Energy Efficiency Fund

Connecticut's Energy Efficiency Programs are funded by a Charge on Customer energy bills.
The Programs are designed to help customers manage their energy usage and cost.
