# FRESH SALT FUN!

## Did you know...

- About 70% of the Earth's surface is covered by water
- And we've only discovered about 5% of the oceans—we have a lot more to find!
- The Mid-Oceanic Ridge is longest mountain range in the world—and it is found under water! It runs along the center of the ocean basins.
- The Atlantic Ocean is the youngest of the seven seas—and it's still widening!

## Can you find the hidden pictures?

## Ridiculous Riddles

1. Where do fish keep their money?
2. What is the most musical part of a fish?
3. How do oysters talk to their friends?
4. What is the strongest creature in the sea?
5. Why did the shark spit out the clownfish?

Answers: 1. A riverbank 2. The scales 3. On shell phones 4. A mussel 5. Because it tasted funny
