

SAYBROOK POINT RESORT & MARINA

Saybrook Point Marina Social Distancing & Sanitization Guidelines:

Below are the steps we are implementing to protect the health and safety of our boaters and staff per Centers for Disease Control and Prevention (CDC) guidelines and Executive Orders of Governor Lamont.

What we are doing:

- Regularly cleaning the dock gates and handrails
- Maintaining a clean workspace
- Social distancing of at least 6 feet whenever possible
- Wearing face coverings when social distancing cannot be maintained
- Requiring employees who show symptoms of COVID-19 or who have been in contact with someone who has COVID-19 to self-quarantine for a minimum of 14 days

Steps You Can Take To Limit Exposure:

- Keep your distance: While we love our close-knit boating community, please remember to stay 6 feet apart from others. For reference, our concrete floating docks are 8' wide and 1 Dock is 12' wide.
- You **must** wear a face covering if you cannot maintain 6 feet of social distancing, unless it would compromise your health/safety due to a medical condition. (Per Executive Order 7BB).
- Wear a face covering at the fuel dock, or when requesting docking assistance at your slip.
- Only one person/family on each finger pier at a time.
- Only one family at each picnic area at a time, clean up after yourself and wipe down the table & grill knobs (if used).
- It is recommended to only boat with those you live with.
- Our staff is still here to help you with your lines, but please be mindful of your distance. Throw lines whenever possible and avoid a direct hand-off of lines or goods whenever possible.
- Only one family in the Lighthouse Lounge at a time, wash your hands upon your arrival and let the staff know when you leave so we can disinfect for the next guests.
- If possible, please use the head on your own boat. If you need to use the public restrooms, masks are required.
- Keep your hands clean by washing them often.
- Use provided disinfectant on the gates when you enter/exit the dock.
- Use disinfectant upon returning dock carts to the walkway (do not leave carts on the docks).
- Keep the docks clear of debris, keep your dock lines, power cords, and hoses neatly coiled so social distancing can be safely maintained on the docks.
- Stay home if you're sick! Currently, the CDC recommends that people with an infectious illness remain at home until at least 48 hours after they are free of fever (100 degrees F or 37.8 degrees C) or signs of a fever without the use of fever-reducing medications.

Thank you for understanding of the new temporary guidelines designed to keep you and our staff safe.
This is a developing situation so our guidelines may change as we learn more.
